IFPRI’s mission is to provide research-based policy solutions to sustainably reduce poverty and end hunger and malnutrition. Recent publications and websites provide critical data and analysis on improving nutrition.

**Resources**

**Nourishing Millions: Stories of Change in Nutrition**
Stuart Gillespie, Judith Hodge, Sivan Yosef, and Rajul Pandya-Lorch, editors

**DATE:** 2016  **ISBN:** 978-0-89629-588-9

*Nourishing Millions* brings together the most intriguing stories about improving nutrition from the past five decades to provide insight into what drives success.

**Pulses for Nutrition in India: Changing Patterns from Farm to Fork**
Devesh Roy, Pramod Kumar Joshi, and Raj Chandra, editors

**DATE:** 2017  **ISBN:** 978-0-89629-256-7

The economic, environmental, and nutritional benefits of pulses are explored to understand how pulses can help India fight hunger and malnutrition.
Purnima Menon, Phuong H. Nguyen, Sneha Mani, Neha Kohli, Rasmi Avula, and Lan M.Tran
DATE: 2017
This overview of India’s national nutrition trends and state-level variability from POSHAN helps to identify areas of progress and areas where more investment is needed.

IFPRI
DATE: 2016
ISBN: 978-0-89629-584-1
This stocktaking of global nutrition focuses on making SMART commitments to end malnutrition in all its forms by 2030.

2017 Global Food Policy Report
IFPRI
DATE: 2017
IFPRI’s 2017 flagship report explores the impact of rapid urbanization on hunger and malnutrition.

Nourished: How Africa Can Build a Future Free from Hunger and Malnutrition
Malabo Montpellier Panel
DATE: 2017
Featuring case studies of seven African countries that have dramatically reduced malnutrition, this report encourages policy makers to meet Africa’s ambitious nutrition targets.

Achieving a Nutrition Revolution for Africa: The Road to Healthier Diets and Optimal Nutrition
Namukolo Covic and Sheryl L. Hendriks, editors
DATE: 2016
ISBN: 978-0-89629-593-3
The 2015 ReSAKSS report examines how Africa’s agriculture-led growth and development agenda can deliver on improving nutrition, productivity, and health.
Nutrition-Sensitive Agriculture: What Have We Learned So Far?
Marie T. Ruel, Agnes R. Quisumbing, and Mysbah Balagamwala
DATE: 2018 JOURNAL: Global Food Security
Reviewing recent evidence on nutrition-sensitive agricultural programs, the authors find that including nutrition and health behavior change communication and women’s empowerment interventions makes these programs more effective.

The Politics of Reducing Malnutrition: Building Commitment and Accelerating Progress
Stuart Gillespie, Lawrence Haddad, Venkatesh Mannar, Purnima Menon, and Nicholas Nisbett
DATE: 2013 JOURNAL: Lancet
The pivotal roles of knowledge and evidence, politics and governance, and capacity and resources in creating and sustaining political momentum for reducing malnutrition are examined in this article.

Nutrition-Sensitive Interventions and Programmes: How Can They Help to Accelerate Progress in Improving Maternal and Child Nutrition?
Marie T. Ruel, Harold Alderman, and the Maternal and Child Nutrition Study Group
DATE: 2013 JOURNAL: Lancet
This article reviews the evidence of nutritional effects of nutrition-sensitive programs in four sectors—agriculture, social safety nets, early child development, and schooling.

CGIAR Research Program on Agriculture for Nutrition and Health (A4NH)
www.a4nh.cgiar.org
A4NH, led by IFPRI, helps realize the potential of agricultural development to deliver gender-equitable health and nutritional benefits to the poor.

HarvestPlus
www.harvestplus.org
HarvestPlus develops and promotes biofortified staple crops to improve human health and nutrition, and provides global leadership on biofortification evidence and technology.
Women Improving Nutrition through Group-based Strategies (WINGS)
www.gaap.ifpri.info/portfolio/south-asia/wings
The WINGS project mobilizes women’s self-help groups in vulnerable, excluded communities to help improve women’s and children’s diets and nutrition.

Transform Nutrition
www.transformnutrition.org
The Transform Nutrition consortium works to strengthen the evidence base on nutrition and engage decision makers and program implementers in dialogue about how to tackle the nutrition crisis.

Agriculture, Nutrition, and Gender Linkages (ANGeL)
www.bangladesh.ifpri.info/our-work/angel
The ANGeL project aims to identify actions and investments in agriculture that are most effective in improving nutrition and empowering women in Bangladesh.

Alive & Thrive
www.aliveandthrive.org
A&T emphasizes optimal breastfeeding and complementary feeding practices for infants and young children, and adequate nourishment and care for pregnant women.

Partnerships and Opportunities to Strengthen and Harmonize Actions for Nutrition in India (POSHAN)
www.poshan.ifpri.info
POSHAN aims to improve nutrition in India by synthesizing, generating, and mobilizing nutrition evidence.
