IFPRI’s mission is to provide research-based policy solutions to sustainably reduce poverty and end hunger and malnutrition. Recent publications examine the critical links between agriculture, nutrition, and health.

2017 Global Food Policy Report
IFPRI
DATE: 2017
IFPRI’s 2017 flagship report explores the impact of rapid urbanization on hunger and malnutrition.

Achieving a Nutrition Revolution for Africa: The Road to Healthier Diets and Optimal Nutrition
Namukolo Covic and Sheryl L. Hendriks, editors
DATE: 2016
ISBN: 978-0-89629-593-3
The 2015 ReSAKSS report examines how Africa’s agriculture-led growth and development agenda can deliver on improving nutrition, productivity, and health.
IFPRI
This stocktaking of global nutrition focuses on making SMART commitments to end malnutrition in all its forms by 2030.

2017 Global Hunger Index: The Inequalities of Hunger
IFPRI, Welthungerhilfe, and Concern Worldwide
The Global Hunger Index reveals long-term, but uneven progress in reducing hunger, highlighting how socioeconomic inequalities drive hunger and malnutrition.

2018 Global Food Policy Report
IFPRI
IFPRI’s 2018 flagship report examines the food security and nutrition impacts of global integration and the threat of antiglobalization pressures.

Nourished: How Africa Can Build a Future Free from Hunger and Malnutrition
Malabo Montpellier Panel
DATE: 2017
Featuring case studies of seven African countries that have dramatically reduced malnutrition, this report encourages policy makers to meet Africa’s ambitious nutrition targets.
Agriculture, Food Security, and Nutrition in Malawi: Leveraging the Links
Noora-Lisa Aberman, Janice Meerman, and Todd Benson, editors

Using primary and secondary data analyses, this report examines how Malawi can better leverage its smallholder agriculture sector to improve nutrition.

Pulses for Nutrition in India: Changing Patterns from Farm to Fork
Devesh Roy, Pramod Kumar Joshi, and Raj Chandra, editors

The economic, environmental, and nutritional benefits of pulses are explored to understand how pulses can help India fight hunger and malnutrition.

Identifying Opportunities for Nutrition-Sensitive Value-Chain Interventions
Alan de Brauw, Aulo Gelli, and Summer L. Allen

This short review documents opportunities to improve nutrition for low-income consumers by intervening in food value chains.

Nourishing Millions: Stories of Change in Nutrition
Stuart Gillespie, Judith Hodge, Sivan Yosef, and Rajul Pandya-Lorch, editors

Nourishing Millions brings together the most intriguing stories about improving nutrition from the past five decades to provide insight into what drives success.
The CGIAR Research Program on Agriculture for Nutrition and Health (A4NH)

A4NH, led by IFPRI, helps realize the potential of agricultural development to deliver gender-equitable health and nutritional benefits to the poor.

Partnerships and Opportunities to Strengthen and Harmonize Actions for Nutrition in India (POSHAN)

POSHAN aims to reduce the nutrition evidence gap in India by synthesizing, generating, and mobilizing nutrition evidence.
